Earth Science field investigation — Weathering evidence (SCHO-255)

Earth Science 8

20 points · Published assignment

Teacher-authorized presentation

Course 895811762849 · Coursework 896258346598 · Fetched 2026-10-28T04:53:00.927Z

Learning goal

distinguish physical and chemical weathering using evidence

Investigation · 1

Observe two safe examples around your home or school without collecting samples.

Course 895811762849 · Coursework 896258346598 · Fetched 2026-10-28T04:53:00.927Z

Investigation · 2

Write a 200–300 word claim-evidence-reasoning explanation identifying each weathering process, two observations, and one alternative explanation.

Investigation · 3

Include a labelled sketch or photo only if you have permission; do not include people or location details.

Course 895811762849 · Coursework 896258346598 · Fetched 2026-10-28T04:53:00.927Z

Investigation · 4

Finish with one question for peer discussion.

Course 895811762849 · Coursework 896258346598 · Fetched 2026-10-28T04:53:00.927Z

Success criteria

accurate science (8 points), specific evidence and reasoning (8 points), clear communication (4 points)

Discuss and explain

What evidence distinguishes physical and chemical weathering? Explain an alternative interpretation of your observations.
